Structural Hex Setcrews High Tensile

Hex head fully threaded.
Finish: Self colour.
Grade: 10.9.
Conformance DIN933.

High Strength Friction Grip Bolt & Nut

Hexagonal head.

Finish: Self colour.
Grade: 8.8.
Conformance: BS4390.

High quality heavy duty steelwork fasteners.

Peiner High Strength Structural Bolts

Finish: Hot dip galvanised.
Grade: 10.9.
Conformance BS6914/
ISO7412.

For use in steelwork,
engineering and heavy
construction applications.

Peiner 10.9 HV bolts are designed for high strength structural bolting. These fasteners are oversized due to the surface coating and should be used only with Peiner structural hex nuts and washers, batch traceable and certifiable through bolt head individual stamping.
